

In response to LPFM idea and the possibility of wiping out current FM translator services, for example K-Love (106.7 FM locally)... what a ridiculous idea! Why constantly try to re-invent the wheel? We need more family oriented programming in the nation like K-Love NOT less! With more of this type of programming maybe the FCC would not be spending so much time fining individuals that violate your policies over the air. It is actually VERY simple and I am surprised you have not "gotten it" yet. Regardless of the overwhelmingly obvious evidence against such a decision, I would encourage you to objectively revisit the issue prior to approval. NEVER has one such form of media (K-Love) been such a blessing to my family both immediate and extended in our quest to follow the Lord Jesus Christ in all we do. Also, I want to thank you for allowing my family to voice our opinion through this website...another 'wheel' that I hope is never "reinvented".
